DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase of lines 1-2 of claim 1 is indefinite because the settle time is the time the electrical circuit takes to change from the unstable state to the stable state upon being triggered, i.e. something must cause the state to change from unstable to stable. Also in claim 1, line 4, the phrase "the settle time" lacks clear antecedent basis. Claims 2 and 3 are the recitation of function without the recitation of the structure that is necessary to perform the function. Claim 2 is mis-descriptive relative to the electrical circuit starting on the unstable state because it is in an unstable state prior to application of power. Claims 6-18 contain deficiencies similar to claims 1-6.

Allowable Subject Matter

2. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
